

DID YOU KNOW?

On average dog poop has 10 times more bacteria than the inside of a toilet. If one walks 6 dogs a week can produce up to 75 acres of waste.

So you can rest
EASY MIND ASSOCIATES HAS

www.easymindassociates.com

Pooor happens. And let's face it, NO ONE wants to hang out in a yard full of feces. No one wants to smell it, step in it, or worse, scoop your pet's poop. You probably can't even get the time to do it without a light, wouldn't it be convenient if there were really handy bangers to help you with this problem?

We service residential and commercial properties, veterinary clinics, kennels, all dog businesses and dog-friendly stores, hotels, dog parks and people parks, and more. We can enhance your cleaning weekly, bi-weekly, monthly or even as a one-time only cleanup. Our affordable rates are based on the frequency of calls and the number of dogs you own.

We are now extending our services beyond the Eugene/Springfield area to encompass the entirety of the Willamette Valley including Portland and its surrounding communities.
